The Newsletter for Whimble Primary School

Issue 7-20

05.06.20

Well, what a wonderful week! It has been lovely to see the return of some of our younger pupils back into class.

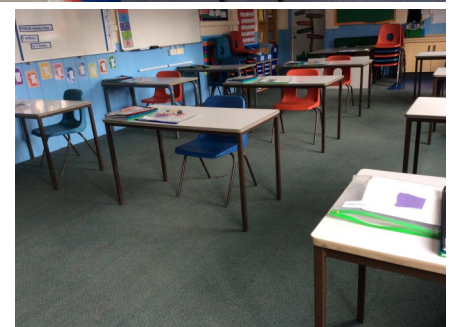

Our drop off and collection procedures are working well, so thank you to those parents involved for reading the information provided and explaining it to your children.

Although our classrooms look very different, it has been fabulous to see some usual teaching and activities going on in them. Our lunchtimes and break times have also changed with smaller numbers and designated areas.

These empty rooms will also hear the sound of laughter again on Monday!

Year 2 to 5

Just to say we haven't forgotten you—our online learning continues and teachers are working hard to choose a balance of activities that help to make learning manageable and fun at home.

Please stay in touch but remember you are unlikely to get a quick response as your teachers are now involved in teaching children in school during the day.
