## The Newsletter for Whimble Primary School

Issue 9-19

15.03.19

What a busy week we have had. The children have had lots of great activities to get involved with and have also had many exciting visitors.

### Red Nose Day

Thank you for all your support sending children in with donations for wearing red items. After a dull weather week it made a change to see some colour. Due to illness the children's assembly has been moved to next week. The 'Design a Nose' competition closes on Friday 22nd March. Donations to date are over £100 - thank you for your support.

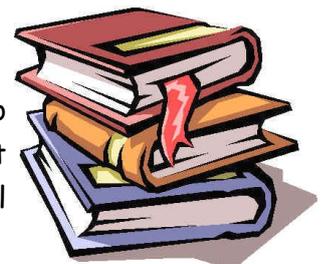

### Winner of the Word Search

Lots of names were placed in the hat— there were 221 spaces left in the large word search and 39 in the Reception one. The name drawn from the hat to win £10 was Maisie in Reception. Congratulations to all those who took part- it was a challenge!

### Open Evenings

On Monday 1st and Thursday 4th April your child's books will be available to look through between 3.45pm and 5.30pm. This is your chance to share what your child has been up to and link with any comments made in their annual report.

## Science Week

Here is just a small taster of what has been happening around the school this week as part of National Science Week. Lots more information and photographs in the March newsletter.

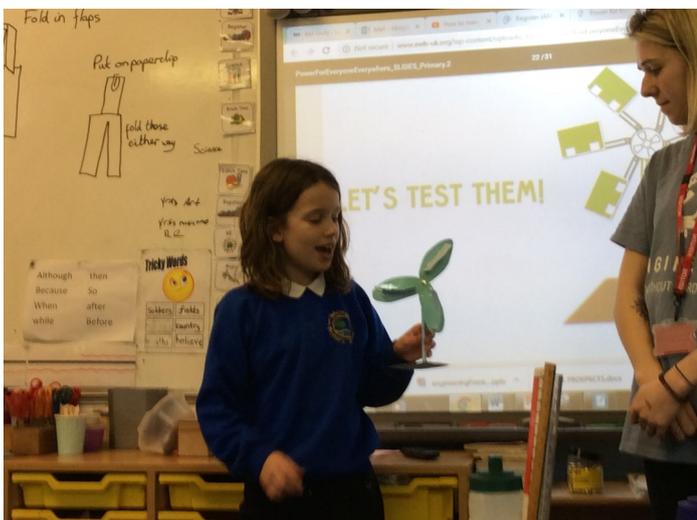

On Monday we had Rebecca from Science Boffins come in for an exciting whole school assembly (which was so daring it accidentally set off the smoke alarm) and then go between all the classes with a variety of hands on science activities like making slime and seeing the effects of electricity. Children also carried out other experiments like making poo and identifying poo from different cultures, engineering balloon transport and optical illusions.

PCSO Jon Sims came to talk about forensic work in the police force and the children tried out fingerprinting and identifying different shapes (dermatoglyphics) and extracting DNA (from strawberries!).

On Thursday a group of science ambassadors from different areas of industry came into to share their

knowledge and inspire the children. They learned about oil exploration, optic fibres and making their own helicopter, and designing and producing wind turbines.

Thank you to Mrs Boyd for taking the time to organise all the visitors/activities and for FOWS for helping to fund it.

## The recycled candle company

At Whimble Primary School, we are collecting spare wax to give to the Recycled Candle Company to be eco friendly! Lizzie in Year 5, will be collecting the wax every other Friday to give to this amazing company. Did you know that Richard collects wax from churches, Cathedrals and famous hotels and restaurants. These candles also have wonderfully, handmade scents!
